

INSTANT SHADE UMBRELLAS

Architectural Umbrellas

Instant Shade Umbrellas are proud to be a distributor of the Skyspan range of Architectural Umbrellas. Skyspan umbrellas are at the cutting edge of design and manufacture of commercial outdoor umbrellas. Skyspan Umbrellas are Australian made and owned and are designed to be long lasting and able to withstand wind gusts of up to 120kph. They are ingeniously designed for ease of installation and ease of client use.

The umbrellas have a solid, heavy duty powdercoated structural aluminium frame and come with the option of a 10 year guaranteed gearing mechanism which makes opening and closing the umbrella with a removable handle a simple task. The canopy is made from a low maintenance, heat reflective, UV treated, fully welded PVC membrane.

Our range includes cantilevered, centre mounted, retractable and portable umbrellas. All of our umbrellas are 100% weather and UV proof, and consist of a wide range of sizes and colours. They can be custom made to suit client needs, with optional add-ons such as heaters, clear drop down curtains, screen printing and lighting.

Instant Shade Umbrellas can offer expert advice and assistance with installation of the entire range.

ARCHITECTURAL UMBRELLAS

Skyspan umbrellas are available in the following ranges:

Horizon Range

Centre column, non retractable umbrellas suitable for the harshest of conditions and wind rated to 120 kph. Suitable for environments where the umbrellas an be open permanently and do not need to be closed.

Sunset Range

Wind-rated to 120 kph, engineered and manufactured in Australia using the best quality materials to give strength, elegance and durability. Centre column, fully retractable umbrellas suitable for Resorts, Caf  s, hotels and all areas where the umbrellas need the option to be retracted quickly.

Vista Range

Incorporating the cantilever arm allows the Vista range to provide a clear area under the canopy, the Vista range is retractable and has an option to pivot 360 degrees to cover more than one area, also allowing it to be retracted and pivoted out of the way to allow sunshine in the cooler months.

Panorama Range

The Panorama range has been designed to incorporate clear drop curtains with a water flow controlled gutter system that can be attached to the perimeter frame providing the ultimate outdoor entertaining solution for all seasons – plus a 150 kph wind rating.

Accessories & Customisation

Skyspan umbrellas can be customised with accessories such as clear wall curtains, rain lips, heaters and lighting. Frames can be powder coated in almost any colour and canopies can be manufactured in a wide range of PVC colours. Printing of logos, marketing slogans and business names is also available – the only limit is your imagination!
