

INSTANT SHADE  
UMBRELLAS

## PANAROMA RANGE

### Fixed Perimeter Frame Umbrellas

These Australian made fixed perimeter framed umbrellas have been designed, engineered and manufactured in Australia using the best quality materials to give strength, elegance and durability. The Panorama range has been designed for the purpose of attaching clear drop curtains to enclose the alfresco area and combining this with a gutter system that can be attached to the perimeter frame to control the water flow, provides the perfect creation and the ultimate in outdoor dining.

Combining the structural grade steel frame with translucent architectural grade PVDF skin Skyspan has created a unique umbrella that is suitable for the harshest of conditions.

Our Panorama range is wind rated by an engineer to 150 kph (W41).
