To Whom It May Concern

Instant Shade were engaged by Froebel Australia to provide multiple permanent umbrella shade structures for a rooftop terrace play space project in Carlton, Victoria 3053.

It has been a pleasure working with Instant Shade on this job which involved working through complex structural matters that required customising base plates for the umbrellas.

The FROEBEL Carlton Early Learning Centre was designed by Silvester Fuller Architects and Openwork Landscape Architects; it won the 2022 Architizer A+Awards for Educational Interiors (Public Choice) and a Commendation in the Australian Interior Design Awards (Public Design).
